Hi Jim,

Thanks again for the recent discussion to go over your data analysis and results. It is very helpful to get your feedback and suggestions regarding the trends in the data and the development of a TN threshold.

Deliberative Process / Ex. 5

FYI, both documents attached to this email are also available in the OneDrive folder we shared with you previously.

Thanks again!

I was sick most of this week, but I did get a chance to do some analysis.

Just in case we want to look at some of what I've done:
